## Conference on Refractories International 2018

**CALL FOR PAPERS**

**OCT. 17-19, 2018**

**HANGZHOU, CHINA**

### Organizers

**Sinosteel LIRR, China**  
**Refractories Committee of The Chinese Society for Metals, China**  
**Refractories Press, China**  
**State Key Laboratory of Advanced Refractories, China**

### Co-organizers

**ISO/TC 33: Technical Committee on Refractories**  
**The Federation for International Refractory Research and Education**  
**refractories WORLDFORUM & Ceramic Forum International, Germany**  
**Indian Refractory Makers Association, India**  
**Wuhan University of Science and Technology, China**  
**Xi'an University of Architecture and Technology, China**  
**Zhengzhou University, China**  
**University of Science and Technology Liaoning, China**  
**The State Key Laboratory of Refractories and Metallurgy, China**  
**The Association of China Refractories Industry, China**  
**China Baowu Steel Group Corporation, China**  
**Sinosteel Refractory Co., Ltd., China**  
**Shandong Refractories Group Co. Ltd., China**

### Supported by

**Puyang Refractories Group Co., Ltd.**  
**Ruitai Technology, China**  
**China Iron & Steel Research Institute Group, China**

## General Information

Conference on Refractories International (CRI 2018), organized by Sinosteel Luoyang Institute of Refractories Research Co., Ltd. (LIRR), Refractories Committee of The Chinese Society for Metals, Refractories Press, and State Key Laboratory of Advanced Refractories will be held in Hangzhou, China on Oct. 17-19, 2018. Conference on Refractories International (CRI) is a serial international conference and this is the initial conference of CRI series. For more information, please visit [www.cri2018.cn](http://www.cri2018.cn).

China is the top country in refractories manufacture and consumption, so the promotion on service of China's refractories means improvement of high temperature industries. CRI 2018 will provide a good opportunity for researchers, manufacturers, suppliers and users around the world to review the progress and achievements made in recent years, to assess new developments in refractories research, production and application to meet new challenges, and to promote further international exchange and cooperation.

## Theme

Better Performance & Better Service

## Topics

Refractory raw materials

Monolithic refractories

Refractories for iron and steel industry

Refractories for nonferrous, cement, glass and other industries

Safety, environmental and recycling solutions for refractories

Advanced techniques and equipment for production, testing, evaluation and installation of refractories

Fundamentals, education, standardization, and patent on refractories

Others

# Organization

## Chairperson

LI Hongxia            Refractories Committee of The Chinese Society for Metals, China  
Sinosteel LIRR, China

## Secretary-general

WANG Zhanmin      Sinosteel LIRR , China

## Vice secretary-general

Chai Junlan           Refractories Committee of The Chinese Society for Metals, China  
Sinosteel LIRR, China

Peng Xigao           Sinosteel LIRR, China

Zhang Xiaohui       Sinosteel LIRR, China

## Organizing Committee

BO Jun                 Sinosteel Refractory Co., Ltd., China  
DUAN Feng           Xi'an University of Architecture and Technology, China  
GAN Feifang          China Baowu Steel Group Corporation, China  
GU Huazhi            Wuhan University of Science and Technology, China  
GUO Zongqi          RHI Refractories (Dalian) Co., Ltd., China  
HE Zhiyong           China Iron and Steel Research Institute Group, China  
HU Huijun            China Baowu Steel Group Corporation, China  
HUANG Zhaohui      China University of Geosciences, China  
LI Tingshou           China Iron and Steel Association, China  
LI Yawei               Wuhan University of Science and Technology, China  
LI Yong                University of Science and Technology Beijing, China  
LIU Baikuan          Puyang Refractories Group Co., Ltd., China  
LIU Wei                Shandong Refractories Group Co., Ltd., China  
LUAN Jian             University of Science and Technology Liaoning, China  
LUO Xudong          University of Science and Technology Liaoning, China  
MA Chengliang       Zhengzhou University, China  
WANG Shouye        Sinosteel Scie-Tech Development Co., Ltd., China  
XIAO Guoqing        Xi'an University of Architecture and Technology, China  
XU Dianli             The Association of China Refractories Industry, China  
YE Guotian            Zhengzhou University, China  
YU Jingkun            Northeastern University, China  
YUAN Lin              Ruitai Technology, China

## Language

English is the working language through the conference.

## Call for Papers

Please submit the full camera-ready manuscripts to [cri2018@nhcl.com.cn](mailto:cri2018@nhcl.com.cn) in both PDF and WORD forms. The deadline for manuscript submission is Sept. 15, 2018.

## Conference Secretariat

**Ms. YU Lingyan, Ms. Ao Ping, and Ms. Wang Jing**

Sinosteel LIRR, China

Add: No. 43 Xiyuan Road, Luoyang 471039, China

Tel: +86-379-64205961
